Subject: Medicine

Clinical Posting	Competency	COMPETENCY (The student should be able to k/kH/S/SH how at the end of TL session)
		Topic: Hear Failure
Day 1	IM 1.10	Elicit document and present an appropriate history that will establish the diagnosis, cause and severity of heart failure
	IM 1.18	Perform and interpret a 12 lead ECG
	IM 1.22	Assist and demonstrate the proper technique in collecting specimen for blood culture
Day 2	IM 1.26	Develop document and present a management plan for patients with heart failure based on type of failure, underlying aetiology
	IM 1.25	Enumerate the indications for valvuloplasty, valvotomy, coronary revascularization and cardiac transplantation
	IM 1.27	Describe and discuss the role of penicillin prophylaxis in the prevention of rheumatic heart disease
	IM 1.30	Administer an intramuscular injection with an appropriate explanation to the patient

Clinical Posting	Competency	COMPETENCY (The student should be able to k/kH/S/SH how at the end of TL session)
Day 3	IM 1.28	Enumerate the causes of adult presentations of congenital heart disease and describe the distinguishing features between cyanotic and a cyanotic heart disease
	IM 1.29	Elicit document and present an appropriate history, of congenital heart disease
		Topic: Acute Myocardial Infarction/ IHD
Day 4	IM 2.7	Perform, demonstrate and document a physical examination including a vascular and cardiac examination that is appropriate for the clinical presentation
	IM 2.8	Generate document and present a differential diagnosis based on the clinical presentation and priorities based on “cannot miss”, most likely diagnosis and severity
Day 5	IM 2.9	Distinguish and differentiate between stable and unstable angina and AMI based on the clinical presentation
	IM 2.10	Order, perform and interpret an ECG
	IM 2.11	Order and interpret a Chest X-ray and markers of acute myocardial infarction
	IM 2.12	Choose and interpret a lipid profile and identify the desirable lipid profile in the clinical context
		Topic: Pneumonia
Day 6	IM 3.4	Elicit document and present an appropriate history including the evolution, risk factors including immune status and occupational risk
	IM 4.21	Develop and present an appropriate diagnostic plan based on the clinical presentation, most likely diagnosis in a prioritised and cost effective manner
Day 7	IM 3.11	Describe and enumerate the indications for further testing including HRCT, Viral cultures, PCR and specialized testing
	IM 3.12	Select, describe and prescribe based on the most likely aetiology, an appropriate empirical antimicrobial based on the pharmacology and antimicrobial spectrum
	IM 3.13	Select, describe and prescribe based on culture and sensitivity appropriate antimicrobial based on the pharmacology and antimicrobial spectrum
		Topic: Liver disease

Clinical Posting	Competency	COMPETENCY (The student should be able to k/kH/S/SH how at the end of TL session)
Day 8	IM 5.9	Elicit document and present a medical history that helps delineate the aetiology of the current presentation and includes clinical presentation, risk factors, drug use, sexual history, vaccination history and family history
	IM 5.11	Generate a differential diagnosis and priorities based on clinical features that suggest a specific aetiology for the presenting symptom
Day 9	IM 5.13	Enumerate the indications for ultrasound and other imaging studies including MRCP and ERCP and describe the findings in liver disease
	IM 5.14	Outline a diagnostic approach to liver disease based on hyper-bilirubinemia, liver function changes and hepatitis serology
		Topic: Rheumatologic problems
Day 10	IM 7.11	Elicit document & present a medical history that will differentiate the aetiologies of disease
	IM 7.12	Perform a systematic examination of y all joints, muscle and skin that will establish the diagnosis and severity of disease
	IM 7.13	Differential diagnosis and prioritise based on clinical features that suggest a specific aetiology
	IM 7.14	Describe the appropriate diagnostic work up based on the presumed aetiology
	IM 7.19	Develop an appropriate treatment plan for patients with rheumatologic diseases
	IM 7.23	Describe the basis for biologic and disease modifying therapy inrheumatologic diseases
		Topic: Hypertension
Day 11	IM 8.9	Elicit document and present a medical history that includes: duration and levels, symptoms, comorbidities, lifestyle, risk factors, family history, psychosocial and environmental factors, dietary assessment, previous and concomitant therapy
	IM 8.10	Perform a systematic examination that includes : an accurate measurement of blood pressure, fundus examination, examination of vasculature and heart
	IM 8.11	Generate a differential diagnosis and prioritise based on clinical features that suggest a specific aetiology

Clinical Posting	Competency	COMPETENCY (The student should be able to k/kH/S/SH how at the end of TL session)
	IM 8.19	Demonstrate understanding of the impact of Hypertension on quality of life, well being, work and family
		Topic: Anemia
Day 12	IM 9.5	Generate a differential diagnosis and prioritise based on clinical features that suggest a specific aetiology
	IM 9.6	Describe the appropriate diagnostic work up based on the presumed aetiology
	IM 9.9	Order and interpret tests for anemia including hemogram, red cell indices, reticulocyte count, iron studies, B12 and folate
Day 13	IM 9.10	Describe, perform and interpret a peripheral smear and stool occult blood
	IM 9.13	Prescribe replacement therapy with iron, B12, folate
		Topic: Diabetes Mellitus
Day 14	IM 11.7	Elicit document and present a medical history that will differentiate the aetiologies of diabetes including risk factors, precipitating factors, lifestyle, nutritional history, family history, medication history, co-morbidities and target organ disease
	IM 11.8	Perform a systematic examination that establishes the diagnosis and severity that includes skin, peripheral pulses, blood pressure measurement, fundus examination, detailed examination of the foot(pulses, nervous and deformities and injuries)
Day 15	IM 11.11	Order and interpret laboratory tests to diagnose diabetes and its complications including: glucoses, glucose tolerance test, glycosylated hemoglobin, urinary micro albumin, ECG, electrolytes, ABG, ketones, renal function tests and lipid profile
	IM 11.12	Perform and interpret a capillary blood glucose test
	IM 11.13	Perform and interpret a urinary ketone estimation with a dipstick
		Topic: Obesity
Day 16	IM 14.6	Elicit and document and present an appropriate history that includes the natural history, dietary history, modifiable risk factors, family history, clues for secondary causes and motivation to lose weight

Clinical Posting	Competency	COMPETENCY (The student should be able to k/kH/S/SH how at the end of TL session)
	IM 14.7	Perform, document and demonstrate a physical examination based on the history that includes general examination, measurement of abdominal obesity, signs of secondary causes and comorbidities
	IM 14.9	Order and interpret diagnostic tests based on the clinical diagnosis including blood glucose, lipids, thyroid function tests etc
	IM 14.11	Communicate and counsel patient on behavioural, dietary and lifestyle modifications
	IM 14.12	Demonstrate an understanding of patient's inability to adhere to lifestyle instructions and counsel them in a non - judgmental way
		Topic: GI bleeding
Day 17	IM 15.4	Elicit and document and present an appropriate history that identifies the route of bleeding, quantity, grade, volume loss, duration, etiology, comorbid illnesses and risk factors
Day 18	IM 15.5	Perform, demonstrate and document a physical examination based on the history that includes general examination, volume assessment and appropriate abdominal examination
	IM 15.8	Generate a differential diagnosis based on the presenting symptoms and clinical features and prioritise based on the most likely diagnosis
	IM 15.9	Choose and interpret diagnostic tests based on the clinical diagnosis including complete blood count, PT and PTT, stool exam, occult blood, liver function tests, H.pylori test.
	IM 15.13	Observe cross matching and blood / blood component transfusion
		Topic: Diarrheal disorder
Day 19	IM 16.4	Elicit and document and present an appropriate history that includes the natural history, dietary history, travel , sexual history and other concomitant illnesses
Day 20	IM 16.5	Perform, document and demonstrate a physical examination based on the history that includes general examination, including an appropriate abdominal examination

Clinical Posting	Competency	COMPETENCY (The student should be able to k/kH/S/SH how at the end of TL session)
	IM 16.7	Generate a differential diagnosis based on the presenting symptoms and clinical features and prioritise based on the most likely diagnosis
	IM 20.4	Elicit and document and present an appropriate history, the circumstance, time, kind of snake, evolution of symptoms in a patient with snake bite
	IM 20.5	Perform a systematic examination, document and present a physical examination that includes general examination, local examination, appropriate cardiac and neurologic examination

Subject: Surgery

Day	competency	Topic
Day 1	SU2.3	Communicate and counsel patients and families about the treatment and prognosis of shock demonstrating empathy and care
Day 2	SU 4.4	Burns- Communicate and counsel patients and families on the outcome and rehabilitation demonstrating empathy and care.
Day 3	SU 5.2	Wound healing and wound care- Elicit, document and present a history in a patient presenting with wounds.
Day 4	SU 5.3	Wound healing and wound care- Differentiate the various types of wounds, plan and observe management of wounds.
Day 5	SU8.2	Demonstrate Professionalism and empathy to the patient undergoing General Surgery
Day6	SU9.3	Communicate the results of surgical investigations and counsel the patient appropriately

Day 7	SU10.1	Describe the principles of perioperative management of common surgical procedures
Day 8	SU10.2	Describe the steps and obtain informed consent in a simulated environment
Day 9	SU10.3	Observe common surgical procedures and assist in minor surgical procedures; Observe emergency lifesaving surgical procedures.
Day 10	SU10.4	Perform basic surgical Skills such as First aid including suturing and minor surgical procedures in simulated environment
Day 11	SU11.3	Demonstrate maintenance of an airway in a mannequin or equivalent
Day 12	SU13.4	Counsel patients and relatives on organ donation in a simulated environment
Day 13	SU 14.1	Basic Surgical Skills - Describe Aseptic techniques, sterilization and disinfection.
Day 14	SU 14.2	Basic Surgical Skills - Describe Surgical approaches, incisions and the use of appropriate instruments in Surgery in general.
Day 15	SU 14.3	Basic Surgical Skills - Describe the materials and methods used for surgical wound closure and anastomosis (sutures, knots and needles
Day 16	SU 14.4	Basic Surgical Skills - Demonstrate the techniques of asepsis and suturing in a simulated environment
Day 17	SU 17.2	Trauma - Demonstrate the steps in Basic Life Support. Transport of injured patient in a simulated environment
Day 18	SU 17.5	Trauma - Describe clinical features for neurological assessment and GCS in head injuries
Day 19	SU 17.6	Trauma - Describe clinical features for neurological assessment and GCS in head injuries
Day 20	SU 17.10	Trauma - Demonstrate Airway maintenance. Recognize and manage tension pneumothorax, hemothorax and flail chest in simulated environment

Day 21	SU18.3	Skin and subcutaneous tissue -The clinical examination of surgical patient including swelling and order relevant investigation for diagnosis. Describe and discuss appropriate treatment plan.
--------	--------	---

Subject: Obstetrics & Gynaecology

Day	Competency no.	Topic
Day 1	OG8.3	Obstetric Examination
Day 2	OG8.4	Clinical Monitoring of Maternal and Fetal wellbeing
Day 3	OG8.5	Maternal Pelvis Fetal Skull pelvic assessment
Day 4	OG9.1	Abortion
Day 5	OG13.4	Mechanism of Labor
Day 6	OG13.4	Management of Labor first stage
Day 7	OG13.4	Intrapartum Monitoring of wellbeing / Partogram and CTG
Day 8	OG35.14	Management of a labor Second stage- Episiotomy
Day 9	OG35.16	Management of a Labor Third stage, PPH, Oxytoxics
Day 10	OG10.1	Antepartum Hemorrhage- (Case) Placenta Previa
Day 11	OG10.1	Antepartum Hemorrhage- (Case) Abruption Placenta
Day 12	OG10.1	Antepartum Hemorrhage- (Case) Abruption Placenta
Day 13	OG35.8	Anemia Case

Day 14	OG35.8	Preeclampsia Antihypertensives in Pregnancy
Day 15	OG35.8	Eclampsia, Anticonvulsants in Pregnancy
Day 16	OG35.8	IUGR, Fetal well-being tests
Day 17	OG35.8	Multifetal Gestation
Day 18	OG35.8	Breech
Day 19	OG12.4	Heart Disease with pregnancy
Day 20	OG12.3	Diabetes in Pregnancy
Day 21	OG12.7	HIV in Pregnancy
Day 22	OG22.1	Vaginal Discharge
Day 23	OG24.1	AUB
Day 24	OG29.1	Uterine Fibroids

Subject: Orthopaedics

Day	Competency	Topic
Day - 1	OR 1.1	Describe and discuss the Principles of pre-hospital care and Casualty management of a trauma victim including principles of triage
Day -2	OR 1.2	Describe and discuss the aetiopathogenesis, clinical features, investigations, and principles of management of shock
Day -3	OR 1..5	Describe and discuss the aetiopathogenesis, clinical features, investigations, and principles of management of dislocation of major joints, shoulder, knee, hip

Day -4	OR 2.1	Describe and discuss the mechanism of Injury, clinical features, investigations and plan management of fracture of clavicle
Day -5	OR 2.2	Describe and discuss the mechanism of Injury, clinical features, investigations and plan management of fractures of proximal humerus
Day -6	OR 2.4	Describe and discuss the mechanism of injury, clinical features, investigations and principles of management of fracture of shaft of humerus and intercondylar fracture humerus with emphasis on neurovascular deficit
Day -7	2.5	Sunday
Day -8	OR 2.6	Describe and discuss the aetiopathogenesis, mechanism of injury, clinical features, investigations and principles of management of fractures of distal radius
Day -9	OR 2.9	Describe and discuss the mechanism of injury, Clinical features, investigations and principle of management of acetabular fracture
Day -10	OR 2.10	Describe and discuss the aetiopathogenesis, mechanism of injury, clinical features, investigations and principles of management of fractures of proximal femur
Day -11	OR 2.11	Describe and discuss the aetiopathogenesis, mechanism of injury, clinical features, investigations and principles of management of (a) Fracture patella (b) Fracture distal femur (c) Fracture proximal tibia with special focus on neurovascular injury and compartment syndrom
Day -12	OR 2.12	Describe and discuss the aetiopathogenesis, clinical features, investigations and principles of management of Fracture shaft of femur in all age groups and the recognition and management of fat embolism as a complication
Day -13	OR 2.13	Describe and discuss the aetiopathogenesis, clinical features, Investigation and principles of management of: (a) Fracture both bones leg (b) Calcaneus (c) Small bones of foot
Day -14		Assessment

Subject: Paediatrics

Day	Competency Number	Topic
Day-1	(PE1.4)	Anthropometry and Growth charts
Day-2		Skill Lab: -Assess airway and breathing. Demonstrate the method of positioning of an infant and child to open airway in a simulated environment
Day-3	PE23.9,PE29.11	General Examination (Vitals and Other Signs)
Day-4	PE23.9, PE29.11	Head to Toe Examination
Day-5	PE24.9,PE 24.10	Case- Diarrhoea Elicit document and present history of Diarrhoea, Asses signs of Dehydration and document and present
Day-6	PE 24.15 PE 24.16	Perform NG tube insertion in a manikin Perform IV cannulation in a model
Day-7	PE29.12	Case PA abdomen exam & demonstrate organomegaly
	PE26.6	External markers of GI & Liver disorders
Day-8	PE29.10,PE29.11	Case – haematology(Iron deficiency anaemia)
	PE29.13,PE29.14	External markers of Haematological disorder(Jaundice, Purpura, Petechae)
	PE29.16,PE29.18	History related to Iron deficiency
Day-9	PE29.11 PE29.12,PE29.14 PE29.16,PE29.19 PE29.20	Case Thalassemia/(Anaemia with Heptospleenomegaly)
	PE23.7,PE23.8, PE23.9	Case-CVS-Elicit History, Analysis of symptoms
		External marker of cardiac disease

Day-10	PE23.10	Pulse, blood pressure in cardiac case
		Case- CVS- Precordial bulge (Inspection palpation, Percussion, Auscultation)
	PE23.11,PE23.12,PE23.13, PE23.14	Case-CVS- Investigation & Management of CVS case
Day-12	PE28.9,PE28.11	Case- RS- History of Upper respiratory Tract Infections and stridor
	PE28.14,PE28.16, PE28.17	Throat examination
		Treatment of upper respiratory tract infection
		Investigation(Blood X- ray of CNS)
Day-13	PE 27.20	Secure an IV access in a simulated environment
Day-14	PE20.2	Case- Normal Newborn
	PE20.4	Assessment of Newborn
		Care of normal Newborn
Day-15	PE20.19	NNH(Neonatal Hyperbilirubinemia)
Day-16	PE30.17	CNS case- History
Day-17	PE30.18	Physical examination and clinical features of CNS
Day-18		Skill Lab -Umbilical catheterization
Day-19	PE 7.8	Educate mothers on ante natal breast care and prepare mothers for lactation
Day-20	P E 10.5	Counsel parents of children with SAM and MAM
Day-21	PE 7.10	Respects patient privacy
Day-22	PE 29.17	Demonstrate performance of bone marrow aspiration in mannequin.
	PE 26.10	Demonstrate the technique of liver biopsy Perform Liver Biopsy in a simulated environment

Day-23	PE 30.23	Perform in a mannequin lumbar puncture. Discuss the indications, contraindication of the procedure
Day-24	End of Posting Exam	

Subject: Community Medicine

Day	Competency no.	Topic
Day 1		Introduction I
Day 2	CM 10.2, 10.3, 10.4	ANC / High risk ANC
Day 3	CM 10.2, 10.3, 10.4, 10.6	PNC / High risk PNC
Day 4	CM 3.3	Diarrhoea in under five
Day 5	CM 8.1	Under five- Pneumonia (ARI)
Day 6	CM 5.4, 5.5, 5.6	Under five- PEM
Day 7	CM 8.2, 8.3	Diabetes
Day 8	CM 8.2, 8.3	Hypertension
Day 9	CM 7.2, 8.2	Alcoholism
Day 10	CM 9.4	Geriatric cataract
Day 11	CM 2.1, 8.1	Coronary vascular diseases/ stroke
Day 12	CM 4.3, 3.6, 3.8	Malaria
Day 13	CM 4.3, 3.6, 3.8	Dengue

Day 14	CM 8.1	Tuberculosis
Day 15	CM 8.1, 1.55	HIV
Day 16	CM 9.1, 9.5,9.6	Leprosy
Day 17	CM 3.3, 3.4	Typhoid
Day 18	CM 7.2, 8.1, 8.3	Hepatitis
Day 19	CM 9.15	Anaemia
Day 20	CM 8.1	Road traffic accident
Day 21	CM 9.4	Blindness / Cataract
Day 22	CM 8.2, 8.3	Cancer- Oral / Breast/ Cervical
Day 23		Revision & journal correction
Day 24		Post ending exam

Subject: ENT

Day	Competency no.	Topics
Day 1		Orientation: Discussion about pattern of UG practical examination.
Day 2	EN2.1	Interrogation of ENT symptoms
Day 3	EN2.2	ENT examination set up and focussing of head light

Day 4	EN2.3	Methods of examination- Ear examination
Day 5	EN4.4	Assessment of hearing-using tuning forks tests
Day 6	EN2.5	Nose Examination
Day 7	EN2.5	Nasopharynx and PNS examination
Day 8	EN2.6	Oral cavity and oro-pharyngeal examination
Day 9	EN2.6	Throat and neck examination
Day 10	EN2.1	Long case writing and presentation during examination
Day 11	EN2.0	Clinical scenario based teaching, learning and evaluation
Day 12		OSCE- based teaching, learning and evaluation
Day 13	EN2.10	Table Viva: ENT Instruments
Day 14	EN2.9	Typical X-Rays in ENT
Day 15	EN2.8	Typical Pure tone audiograms and Tympanometry
Day 16	EN2.10	General Viva on subject of ENT
Day 17		Revision and Q&A-Ear
Day 18		Revision and Q&A - Nose
Day 19		Revision and Q&A - Throat and neck
Day 20		Revision and Q&A - Clinical case
Day 21		Revision and Q&A - Clinical scenarios & OSCE

Subject: Ophthalmology

Day	Competency	TOPIC
Day – 1	OP 1.3 OP 3.1	History & Symptomatology - I
Day – 2	OP 3.1 OP 3.2	History & Symptomatology - II
Day – 3	OP 1.3 OP 3.1 OP 3.2	Ocular Examination - I
Day – 4	OP 3.1 OP 3.2	Ocular Examination - II
Day – 5	OP 7.3	Cataract Case Presentation
Day – 6	OP 7.2 OP 7.4	Cataract Case Evaluation
Day – 7	OP 7.4	Cataract Management with videos
Day – 8	OP 7.4 OP 7.5 OP 7.6	Post Operative Complications of Cataract
Day – 9	OP 3.6 OP 7.3	Cataract With Pterygium
Day – 10	OP 7.3 OP 8.1 OP 8.2 OP 8.4	Cataract With DM or HTN
Day – 11	OP 7.3	Cataract With Glaucoma
Day – 12	OP 2.1 OP 7.2	Cataract With Dacrocystitis
Day – 13		OSPE & OSCE

Day – 14		Drugs
Day – 15	OP 1.2 OP 1.3	Optics & Instruments
Day – 16		Ward Ending Examination
Day – 17		Ward Ending Examination

Subject: Respiratory Medicine

Sr. No.	Competency	Topic
		Topic: Tuberculosis
Day 1	CT1.5	Elicit, document and present an appropriate medical history that includes risk factor, contacts, symptoms including cough and fever CNS and other manifestations
Day 2	CT1.5	Elicit, document and present an appropriate medical history that includes risk factor, contacts, symptoms including cough and fever CNS and other manifestations
Day 3	CT1.6	Demonstrate and perform a systematic exam that establishes the diagnosis based on the clinical presentation that includes a) general examination, b) examination of the chest and lung including loss of volume, mediastinal shift, percussion and auscultation (including DOAP session of lung sounds and added sounds) c)examination of the lymphatic system and d) relevant CNS examination
Day 4	CT1.6	Demonstrate and perform a systematic exam that establishes the diagnosis based on the clinical presentation that includes a) general examination, b) examination of the chest and lung including loss of volume, mediastinal shift, percussion and auscultation (including DOAP session of lung sounds and added sounds) c) examination of the lymphatic system and d) relevant CNS examination
Day 5	CT1.8	Generate differential diagnosis based on the clinical history and evolution of the disease that prioritizes the most likely diagnosis

Day 6	CT1.9	Order and interpret diagnostic tests based on the clinical presentation including: CBC, Chest Xray PA view, Mantoux, sputum culture and sensitivity, pleural fluid examination and culture, HIV testing
		Topic: COPD
Day 7	CT2.8	Elicit document and present a medical history that will differentiate the aetiologies of obstructive airway disease, severity and precipitants
Day 8	CT2.9	Perform a systematic examination that establishes the diagnosis and severity that includes measurement of respiratory rate, level of respiratory distress, effort tolerance, breath sounds, added sounds, identification of signs of consolidation pleural effusion and pneumothorax
Day 9	CT2.10	Generate a differential diagnosis and prioritise based on clinical features that suggest a specific aetiology
Day 10	CT2.11	Describe, discuss and interpret pulmonary function tests
Day 11	CT2.12	Perform and interpret peak expiratory flow rate
Day 12	CT2.24	Recognise the impact of OAD on patient's quality of life, wellbeing, work and family
Day 13	CT2.27	Demonstrate an understanding of patient's inability to change working, living and environmental factors that influence progression of airway disease
Day 14	CT2.28	Demonstrate an understanding for the difficulties faced by patients during smoking cessation

Subject: Psychiatry

Day	Sr No	Competency	Topics
Day 1	PSY-CP(III)-1	PS17.1, 17.2, 17.3	Emergency Psychiatry
Day 2	PSY-CP(III)-2	PS 11.2, 11.3, 11.5	Personality Disorders
Day 3	PSY-CP(III)-3	PS 3.9, 12.2, 12.3, 12.5, 15.3	Consultation-Liaison Psychiatry & Organic Psychiatric Disorders
Day 4	PSY-CP(III)-4	PS13.2, 13.3, 13.5	Psychosexual Disorders &

			Gender Identity Disorders
Day 5	PSY-CP(III)-5	PS14.2, 14.4, 15.3	Child & Adolescent Psychiatry (Including Intellectual Disability)
Day 6	PSY-CP(III)-6	PS16.1, 3.5, 16.4	Geriatric Psychiatry

Subject: Dermatology

Day	Competency	Topic
DAY 1	DR 1.2	ACNE
DAY 2	DR 2.1	VITILIGO
DAY 3	DR 3.1, 3.2	PAPULOSQUAMOUS DISEASES
DAY 4	DR 5.2	SCABIES
DAY 5	DR 7.2	FUNGAL INFECTION
DAY 6	DR 8.2,8.3,8.4,8.5,8.6	VIRAL INFECTION
DAY 7	DR 9.2, 9.3	LEPROSY
DAY 8	DR 12.2, 12.5, 12.6	ECZEMA
DAY 9	DR 13.1, 13.2,13.3	VESICULO-BULLOUS LESIONS
DAY 10	DR 15.1, 15.2,15.4	PYODERMA

DAY 11	DR 10.1, 10.2, 10.7	STD
DAY 12		ASSESSMENT

Subject: Emergency Medicine

Day	Competency Number	Topic Name
DAY 1	EM 1.1	Introduction to Triage and Patient Prioritization
DAY 2	EM 2.1	Basic Life Support (BLS) Principles and Practice
DAY 3	EM 3.1	Assessment and Management of Airway Emergencies
DAY 4	EM 4.1	Recognition and Initial Management of Shock
DAY 5	EM 5.1	Primary Survey in Trauma
DAY 6	EM 6.1	Cardiopulmonary Resuscitation (CPR) Techniques
DAY 7	EM 7.1	Assessment and Management of Chest Pain
DAY 8	EM 8.1	Approach to Respiratory Distress
DAY 9	EM 9.1	Initial Evaluation and management of Abdominal Pain
DAY 10	EM 10.1	Recognition and Management of Anaphylaxis
DAY 11	EM 11.1	Assessment and Treatment of Burns
DAY 12	EM 12.1	Introduction to Poisoning Management
Day 13	EM 13.1	Assessment and Management of Seizures
Day 14	EM 14.1	Evaluation and Stabilization of Fractures
Day 15	EM 15.1	Wound care and First aid

Subject: Radiology

Day	Competency Number	Topic
DAY 1	RD 1.3	E N T. USG of CT X-Ray MRI USG In sinusitis, Oto Mastoiditis, C P angle lesions Oral and buccal malignancies
DAY 2	RD 1.4	a. USG appearances of ovulation studies b. Normal pregnancy & foetal monitoring on USG.
DAY 3	RD 1.5	Internal medicine Cardio-respiratory system, CT coronary angio MRI for myocardial viability Stroke imaging and intervention CT MRI guided procedures Abdominal pain X ray USG CT
DAY 4	RD 1.6	Surgery Acute abdomen investigations X Ray USG CT sos. Blunt trauma , Renal colic Chronic abdomen USG CT MRI
DAY 5	RD 1.7	Paediatrics RDS , Congenital anomalies intussusceptions necrotising e colitis USG X Ray Pneumonia Koch's, viral diseases.
DAY 6	RD 1.8	Oncology: Algorithm for imaging of various neoplastic diseases.
DAY 7	RD1.9	Emergency Radiology

		a. Skull and abdominal trauma CT USG critical alerts to clinicians in intracranial hematoma abdominal organ injuries penetrating injuries foreign body localisations.
DAY 8	RD1.9	b. Obstetrics & gynec emergencies torsion of ovary labour l u d ectopic gestation c. skeletal injuries.
DAY 9	RD 1.10	Patient preparation for common procedures. For Iv contrast procedures and oral per-rectal procedures For CT and M R I
DAY 10	RD1.11	Radiolocal investigation in pregnancy.
DAY 11	D12	Term ending Examination

Subject: Anaesthesiology

Day	Competency No	Competency	Topic
Day 1	AS 3.2	Elicit, present, and document an appropriate history including medication history in a patient undergoing Surgery as it pertains to a preoperative anaesthetic evaluation	PREOPERATIVE EVALUATION AND MEDICATION
Day 2	AS3.3	Demonstrate and document an appropriate clinical examination in a patient undergoing General Surgery	PREOPERATIVE EVALUATION AND MEDICATION
Day 3	AS3.4	Choose and interpret appropriate testing for patients undergoing Surgery	PREOPERATIVE EVALUATION AND MEDICATION

Day 4	AS3.5	Determine the readiness for General Surgery in a patient based on preoperative evaluation	PREOPERATIVE EVALUATION AND MEDICATION
Day 5	AS4.3, AS5.1	Observe and describe principle and practical aspects of induction and maintenance of general and regional anaesthesia (including spinal epidural and combined).	GENERAL AND REGIONAL ANAESTHESIA
Day 6	AS5.3	Observe and describe principle and steps/techniques involved in peripheral blocks.	GENERAL AND REGIONAL ANAESTHESIA
Day 7	AS6.2	Observe and enumerate the contents of the crash cart and describe the equipment used in the recovery room	POST ANAESTHESIA RECOVERY
Day 8	AS6.3	Describe the common complications encountered by patients in the recovery room, their recognition, and principles of management	POST ANAESTHESIA RECOVERY
Day 9	AS7.1	Visit, enumerate and describe the functions of an Intensive Care Unit	INTENSIVE CARE UNIT
Day 10	AS7.2	Enumerate and describe the criteria for admission and discharge of a patient to an ICU	INTENSIVE CARE UNIT
Day 11	AS7.3	Observe and describe the management of an unconscious patient	INTENSIVE CARE UNIT
Day 12	A S2.1	Enumerate the indications, describe the steps and demonstrate in a simulated environment Basic Life Support in adults, children and neonates	CARDIOPULMONARY RESUSCITATION

Day 13	A S2.2	Enumerate the indications, describe the steps and demonstrate in a simulated environment Advanced Life Support in adults and children	CARDIOPULMONARY RESUSCITATION
Day 14	A S9.1	Establish intravenous access in a simulated environment	FLUIDS
	AS9.2	Establish central venous access in a simulated environment
